Data Structures & Algorithms Master Cheat Sheet & Code Referen

CS301 | StudyVault Academic Repository

StudyVault Digital Study Material - Department of Computer Science

Key Concepts & Highlights:

Asymptotic Notation: Big-O, Big-Omega, Big-Theta time and space complexity table

Linear Structures: Arrays, Singly/Doubly Linked Lists, Stacks, and Queues implementation

Non-Linear Structures: Binary Trees, BST operations, AVL Tree self-balancing rotations

Heaps & Priority Queues: Min-Heap, Max-Heap, and HeapSort algorithm

Graph Algorithms: BFS, DFS, Dijkstra’s Shortest Path, Prim’s and Kruskal’s MST
